ARKANSAS COLNING,

TOPICS. CYRRENT

As official dispatch from Gen. Crook to Gen. Sheridan gives an account of a reconnoissance by Frank Gruard, Crook's scout, escetted by a small detachment of the Second Cavalry. The party came on the 7th to a point near where the Little Big Horn debouches from the mountains, where they encountered the Sioux in strong force, and saw enough to convince them that the main village of the hestiles is not far from this point. They succeeded in making their escape only after abandoning their animals and marching across the rugged foot-hills of the Big Horn Mountains. The mon were nearly exhausted when they reached the camp. Lieut. Sibley and Frank Gruard are especially complimented for the cookness and judgment displayed by them on the occasion.

THE Belgrade correspondent of the London Daily Times telegraphed on the 25th that the Servians had abandoned all aggressive movements and ordered the withdrawal of all troops to within line, 30 to 40 miles from Crook's presthe frontier. There was great depres- ent camp. Gen. Merritt left Fetterman sion at Belgrade and in the Servian on the 26th with eight companies of the camp. A number of engagements had 5th Cavalry. Two more are on the way taken place, in which the Turks were to Festerman. They will take some 150 generally victorious. It is reported recruits and follow in a few days. officially from Constantinople that the Turks had crossed the frontier and captured several villages.

THERE has been a great falling-off in the number of visitors at the 'Centennial Exhibition since the Fourth of July, and in order to reduce expenses some 30 employees were discharged on the 25th. A reduction in the price of admission to 25 cents has been made to school-teachers and their pupils.

SENATOR AIMEN T. CAPERTON, of West Virginia, died in Washington on the will be forwarded to the donor. 26th, after an illness of less than a week's duration. His disease was angina pectoris. Mr. Caperton was a Democrat politically, and his Senatorial term expires in 1881.

SENATOR ALLAN TAYLOR CAPERTON, brought on by the hot weather, was a fine specimen of the old Virginia gentleman, 66 years of age, with a long white beard, which gave him a vatriarchal appearance. Before the war he was an ardent Whig. He cast his fortunes with the South at the breaking out of the rebellion, and was elected to the Confederate Senate. His country Beale; Secretary of State, W. M. Allihome in the mountains of West Virginia was the seat of unstinted hospitality, and he is deeply lamented by a large D. Brumbaugh; Superintendent of Pubcircle of personal friends, including lie Instruction, Thomas Bartlett; Assothose with whom he has become acquainted since he entered the Senzte in Convention indorsed the ticket and

THE Lendon Times's Berlin correspondent says the Democratic Society of Frankfort-on-the-Main presented on the 4th of July an address in honor of the 27th and nominated the following the Centennial to the American Consul, strongly reflecting upon monarchical institutions. The Consul refused to ac- F. H. Crago; Anditor, C. M. Shinn; cept the address. The Secretary thereupon complained to the American Minister, Bancroft Davis, who replied that it was inadmissible for an American representative to meddle with party

OFFICIAL returns made to the Bureau of Statistics show that during the fiscal year ended June 30, 1876, there arrived in the United States 22,572 Chi nese immigrants, of whom only 259 were females. During the corresponding period of 1875 the total immigration to the United States from China was 16,437, of which 82 were females.

THE Louisiana Democratic State Convention, held on the 27th, nominated the following ticket: For Governor, Francis T. Nichols; Lieutenant-Governor, Louis A. Wiltz; Attorney-General, N. H. Ogden; Secretary of State, Wm. A. Strong; Anditor, Allen Jumel; Esperintendent of Education, Robert M. Lusher. For Congress: First Distriet, R. L. Gibson; Second, B. John Ellis; Third, J. H. Acklin; Fourth, J. Fifth District will nominkte at Monroe.

BLUFORD WILSON, late Solleitor of the Tressury, appeared before the House Committee investigating the St. Londs whisky trials, on the 27th, and gave in detail his knowledge in reference thereto. He said that a letter written by him to the prosecuting officer at St. Louis, urging the greatest acfirsty is conducting the prosecutions, was in some way obtained presenting of by Gan. Babcock, who interpolated it in such a way as to leave the Provident to later that he (Wilson) had employed spice in the White House, and this impression he was unable to remove from the mind of the President, notwithstanding the letter-press copy of the letter in question showed that is had been futnified. Mr Wilson said that there was no lack of ecooperation on the part of the Propident in the whise to come generally until Believon's two observed purpose of the finance to the comment to the comment of the com

The Depth of Mining Shafts.

Twenty years ago the deepest mining shafts in the world reached only about 2,000 feet below the surface. The very mint in Hanover, which had been carried down to the depth of 2,290 feet. The deepest perpendicular shaft to-day ed them they lost all of their bravado is the Adalbert shaft in a silver-lead and begged and cried for mercy. One mine in Prizibram, in Bohemia, which of them was strung up to the bridge has reached a depth of 3,280 feet. The with a pair of leather lines. The other attainment of that depth was made the made a desperate attempt to escape, occasion of a three days' festival, and but was recaptured after a hard chase jumped from a third-story window of a still further noticed by the striking off and hanged to a tree in a part of the burning shouldy-mill in Philadelphia, on of a large number of commemorative town where the Mexicans reside. In the 20th, and both were instantly killed. silver medals of the value of a florin the morning the body of the latter was Maria Hoeveler was so badly burned that each. There is no record of the begin- found lying in the road, it having probning of work on this mine, although its ably been cut down by some friends of written history goes back to 1527. Quite the deceased. Both of the victims of recently an elegant commemorative this sudden and even-kanded adminisvolume has been written and printed, tration of justice were residents of which is most interesting to those who Canon City, and well known there. have a taste for either the actualities | When our informant left Camen City The commanding officer at Columbus, or antiquities of mining industry. There are two other localities, however, where a greater depth has been reached than at the Adalbert shaft, but not in a perpendicular line. These are: 1. The Rocksalt bore hole, near Sperenburg, not far from Berlin, which a few years ago had been bored to a depth of 4,175 feet. 2. The coal mines of Viviers Renins, in Belgium, where the miners by shaft-sinking, together with boring, have reached a total depth of 3,542 feet. Furning from these two mines, no shaft in unbroken perpendicular line has as pet exceeded the depth of 3,2% feet. Although the depths to which the shafts enumerated have penetrated into the interior of the earth in the art and practies of mining may appear mighty, and may be an expressive witness of the great progress caste in mining purenits, ret, on the cener band, the above ly small when we compare them with the extent of the earth's creat and the distriction of the parth Religious

A Short Shrift.

The Pueblo Chieftain gives a long ac count of the hanging of two murderers at Canon City, on the night of the 21st, from which the following extract is

About 11 o'clock on Friday night, as near as we can learn, Messrs. Talmage and Salazar were honored with a call from a few friends, who seemed anxious as to their welfare. The prisoners were taken from their places of confinement and brought before Judge Lynch's court. On being questioned they confessed the murder, stating that Mr. Newman had hired them to go with him on his trip, and that through a Mexican woman they learned that he had a large sum of money in his possession. The first night after they left Canon City, when encamped near Frank's ranch, they murdered him while he was asleep, smashing in his skull with a large stone. After concealing the body, Talmage took the team and Salazar the money, and they immediately departed for the canyon of the Huerfano. Each of the prisoners accused the other of striking the tatal blow, and blood was found on the cloth-

ng of each. The sentence of the court was that the prisoners be hanged immediately. When they discovered what fate awaitthe Coroner was preparing to hold an inquest on the bodies.

How Ningara Almost Ran Dry.

On March 29th, 1848, a remarkable phenomenon occurred. The preceding winter had been interestly exclat, and the ice formed on Lake Eric was unusually thick. In the warm days of early spring, the mass of the was loosened around the shores of the lake and datached from them. Ibering the forenoon of the day named, a stiff ensuring wind moved h up the lake. A little his fore sunset, the wind chopped suddenly round and blow a gale from the west. This brought the wast field of ice back again with such transmissions force that it filled in the much of the lake and its cottlet so as to form a very affective dam, that remained a remarkable dissipar tion in the smithow of water. (If emisse it mostled him Highe time for the Phills to drain off the water below this date. The consequence was that on the riverone of the following day, the come was nearly half goes. Brilliant Ink.

The writing of the present day, bril-

liant as it often is, will probably become doubly so before long. Two French chemists have, according to the English Mechanic, taken out a patent for making ink for letter-press printing, lithography, and autography from the refuse of the gas-works, from ether, tar, and the heavy oils of petroleum, resin woods, etc. These substances, it is asserted, mix readily with lampblack and other dry colors in powder; and the ink made from them has the great advantage of neither penetrating the paper disposed of since the close of the war. nor spreading, and it may be mixed In speaking of times past and gone, in any desired proportions with the fatty an exchange remarks: "One hundred oils for certain classes. For black ink years ago a woman did not lose caste for typographical printing the inby wetting her hands in dish-water or ventors use what they call evaporated rubbing the skin off her knuckles on a tar or liquid pitch with lampblack and washboard." Ah! those were good old Prussian blue in the following times! Few boys now living have ever proportions: tar, 160 parts; lampblack, seen their mothers grow red in the face 36 parts; Prussian blue, 10 parts; glyand jump up and down as the handle cerine, 10 parts. For colored laks they use the heavy oils, purified as far as A HIBERNIAN collector of soap-grease possible from the tarry matters at the South End, who has driven which give a brown tint, with around the most shattered old frame the coloring matter in powthat a horsehide could cover, appeared der. "By me soul, av I see the acids (true chemical compounds), with morrow I'll buy a good harse av it costs the addition of a good deal of carbon.

A Daughter of the People.

Mrs. Flora White, well known in the fasnionable world forty years ago, was one of the most beautiful, accomplished, elegant, and attractive women of her day. She was the daughter of General Adair, of Kentucky, and her first husband was Joseph M. White, the second delegate sent to Congress from the Territory of Florida. Highly educated, full of genius, and with the manners and bearing of a queen, her society was courted by the most elevated circles in Washington, New Orleans, New York and Boston. She was a brilliant conversationalist, ready and discusse at repartee, and a sin ere, warm hearted gentlewoman of the most gracious and generous impulses. On one of her visits to Rome she was presented to the Pope

"Kneel, my daughter," said he, as she stood erect in her imperial grace before him. "All kneed to not except the daughters of sovereign
